

Pierre LEFEBVRE, MD, FEBO

PERSONAL DETAILS

Nationality: Belgian

Languages: French (mother tongue), Dutch, English

EDUCATION

Ophthalmologist since 2004 (European Board of Ophthalmology),

Main fields of interest: uveitis - refractive surgery - cataract surgery

Private practice:

- Messidor Eye Center since 2013
- CHIREC, Delta since 2017, previously Parc Léopold (2009-2017)
- Medicis Medical Centre (2009-2015)

Cataract surgery:

- CHIREC Delta (Brussels) since 2017, previously Parc Léopold (2009-2017)

Refractive surgery :

- Brussels Eye Center since 2011

Public Institutes:

- CHU Tivoli (La Louvière): cataract surgery and uveitis since 2009
- Hôpital Saint-Pierre (Brussels): uveitis since 2009
- Hôpital Erasme (2000-2008)

2008: Honorary Fellowship in Uveitis & Uveitic Glaucoma - Moorfields Eye Hospital - London - Consultants: Mr Carlos Pavesio & Mr Keith Barton

2005-2008: 3-year-Assistant Chief of clinic in Erasme University Hospital - Brussels (Belgium) - Department of Ophthalmology (Head of Department: Professor M Cordonnier) - Main fields of interest: ocular and systemic inflammation/uveitis - cataract surgery

2000-2004: 4-year-Residency in Ophthalmology in Erasme University Hospital (Head of Department: Professor A Zanen) - Brussels (Belgium)

1993-2000: Second Cycle: Medical doctor qualified with high honours- Dissertation: Massive sub-retinal haemorrhages following radiotherapy in ARMD (with highest honours) - Dissertation adviser: Pr Verougstraete
Elective in Burkina Faso (Paediatrics and Internal Medicine)

ADDITIONAL TRAINING

2016: Inter-University Diploma Cornea - Paris - France

2014: Inter-University Diploma **Ocular Surface** - Brest - France
 2010: Macular Course - London - United Kingdom
 2007: Inter-University Diploma **Contact Lenses** - Bordeaux - France
 2007: Training in Soft Contact Lenses - Paris - France
 2006: Training in Rigid Gas Permeable Contact Lenses - Paris - France
 2006: Inter-University Diploma **Refractive Surgery and Cataract Surgery** - Besançon - France
 2004 - 2005: active taking part in Professor Bodaghi **Uveitis consultation** at La Pitié-Salpêtrière - Paris (France)
 2004: Inter-University Diploma **Glaucoma's** - Angers - France
 2004: Continuing medical advanced training course in **Glaucoma** - Paris - France
 2003: University Diploma **Retinal Imaging and Macular Treatments** - Paris - France
 2003: Inter-University Diploma **Ocular Infection and Inflammation** - Paris - France
 2002: University Diploma **Paediatric Ophthalmology** - Dissertation: **Leber's Hereditary Optic Neuropathy** - Paris - France

SEMINARS AND COMMUNICATIONS

INTERCLINICAL COURSES

- 2007 to 2013 - OB - Brussels (Belgium), Uveitis

INTERNATIONAL VIVAS

- June 2017 - Manama - Birdshot retinochoroidopathy
- May 2005 - Ocular Inflammation Club - Paris (France), Long term follow-up of patients presenting with serpiginous choroiditis
- July 2004 - International Neuro-Ophthalmology Society - Geneva (Switzerland), An unusual cause of visual loss: involvement of bilateral lateral geniculate bodies - presented by Pr Monique Cordonnier
- March 2003 - Paediatric Ophthalmology Day - Paris (France), Leber's Hereditary Optic Neuropathy, viva of the dissertation achieved during University Diploma Paediatric Ophthalmology

INTERNATIONAL POSTERS

- September 2007 - IOIS - Paris (France), Bilateral Tropheryma whipplei panuveitis
- May 2006 - French Society of Ophthalmology - Paris (France), Conjunctive ulcer in Behçet disease

- May 2005 - ARVO - Fort Lauderdale (Florida), Long term follow-up of patients presenting with serpiginous choroiditis

NATIONAL VIVAS

- Birdshot retinochoroidopathy - Paediatric uveitis of rheumatologic origin - Drug-induced toxicity on the Uvea and on the Lens - Long term follow-up of patients presenting with serpiginous choroiditis - Antiphospholipid syndrome, Activated protein C resistance and bilateral papillitis: a case report - Three consecutive episodes of acute retinal necrosis in the same eye and due to HSV-1 over twelve years following herpetic encephalitis - Serpiginous choroiditis - Uveitis and Rheumatic Diseases - Behçet's disease - Retrobulbar optic neuritis in Ulcerative colitis and Wegener's disease - Vogt-Koyanagi-Harada Disease

NATIONAL POSTERS

- 2014 - OB - Brussels (Belgium), Subfoveal choroidal thickness measured by OCT EDI (Enhanced Depth Imaging) was not found to be altered by the administration of tropicamide and phenylephrine eyedrops, Aouchar Z, Bazewicz M, Makhoul D, Judice L, Lefèbvre P, Caspers L, Postelmans L, Willermain F, El Ouardighi H
- 2007 - OB - Brussels (Belgium), Bilateral Tropheryma whipplei panuveitis - second prize
- 2006 - Société belge de Médecine Interne - Brussels (Belgium), An atypical case of Whipple disease, Nubourgh, Lefèbvre, Lemy, Dumarey, Vandergheynst, Decaux
- 2005 - OB - Brussels (Belgium), Long term follow-up of patients presenting with serpiginous choroiditis
